Search Jobs

To help narrow a job search, select the options of desired position. The more criteria you enter, the more limited your search results will be. Entering fewer criteria will usually return more jobs in your search results. When an employer posts a job, the same criteria selections are used.

The screenshot shows a web interface for job searching. At the top, there's a 'Jobs' header. Below it are two tabs: 'Saved Jobs' and 'Applied Jobs'. The 'Saved Jobs' tab is selected, showing 'Saved Jobs (0 of a possible 30 jobs)'. A message in the center says 'You do not have any saved jobs.' At the bottom right, there is a blue 'SEARCH JOBS' button, with a red arrow pointing to it from the left.

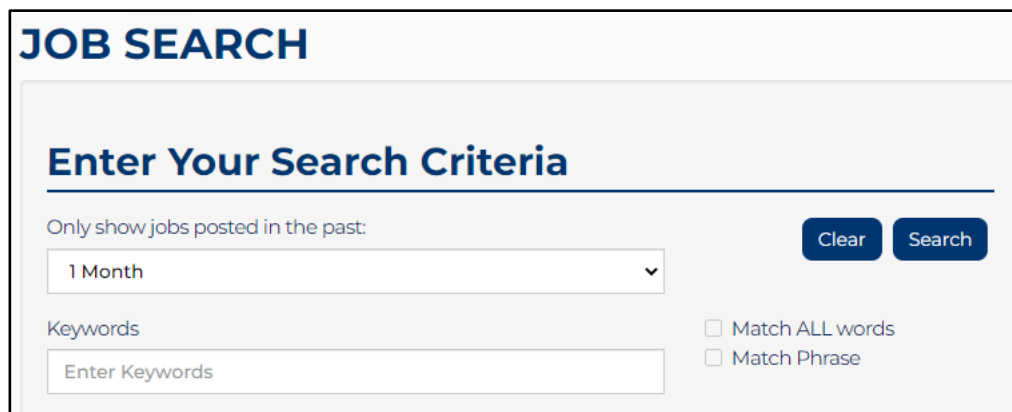

Note: Jobs postings can be eliminated from your job search if the select criteria was not completed by the employer. This may result in not seeing a job posting you would want to apply for. It is recommended to explore several search criteria to determine which results are best.

Enter Your Search Criteria

Enter search criteria to narrow search results. Click “Submit” to view results.

Search by how long the job has been posted: 1 day, 1 week, 2 weeks or 1 month.

Searching on Keywords or Job Title, such as Project Manager, will search on both words. If you would like to search on the exact phrase, use quotes as in “Project Manager.” When you begin typing a job title, the system will generate a list of active job titles currently in the system.

The screenshot shows a 'JOB SEARCH' form. The title is 'Enter Your Search Criteria'. Below the title, there's a section for filtering by time: 'Only show jobs posted in the past:' with a dropdown menu set to '1 Month'. To the right of this are 'Clear' and 'Search' buttons. Below that is a 'Keywords' section with an input field labeled 'Enter Keywords' and two checkboxes: 'Match ALL words' and 'Match Phrase'.

There is also an option to search by Job Code Number, which can be used to find a single job posting for which the Job Code Number is known.

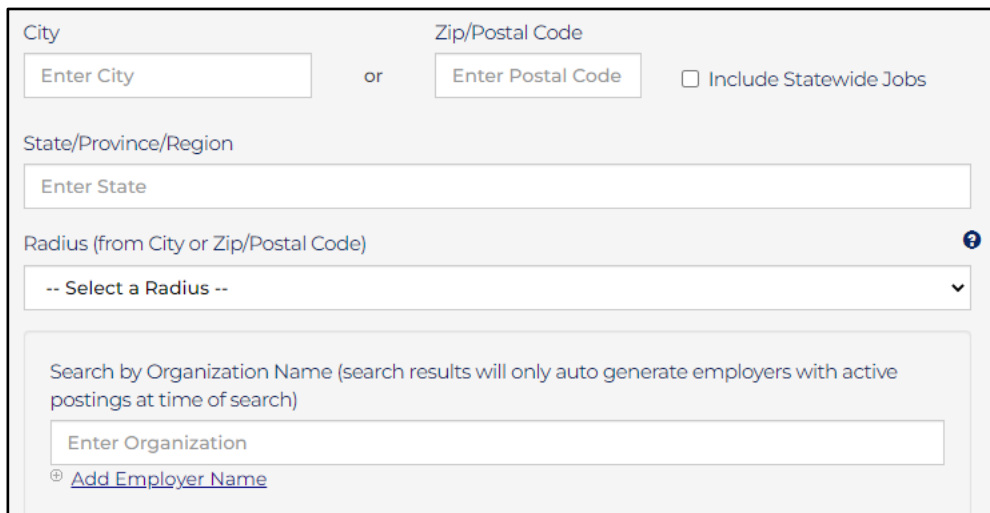

A search form with two input fields. The first field is labeled "Job Title" and contains the placeholder text "Enter Job Title". The second field is labeled "Job Code Number" and contains the placeholder text "Enter Job Code Number".

Search by location of job posting by:

- City
- Zip/Postal Code
- State or Statewide jobs.

Note: Some employers post several positions across the state of Michigan. Select this feature to broaden your search for job postings.

When searching for certain employers, enter Organization Name (search results will only auto generate employers with active postings at time of search) for active job postings. Click "Add Employer Name" to add multiple employers.

A search form with several sections. The first section has two input fields: "City" (with placeholder "Enter City") and "Zip/Postal Code" (with placeholder "Enter Postal Code"), separated by the word "or". To the right of the "Zip/Postal Code" field is a checkbox labeled "Include Statewide Jobs". The second section is labeled "State/Province/Region" and has an input field with placeholder "Enter State". The third section is labeled "Radius (from City or Zip/Postal Code)" and has a dropdown menu with the text "-- Select a Radius --" and a question mark icon. The fourth section is labeled "Search by Organization Name (search results will only auto generate employers with active postings at time of search)" and has an input field with placeholder "Enter Organization". 4. Select format for resume from three resume templates and Click “Next”.
 - a. Chronological resumes will list information in date order.
 - b. Functional resumes will group information by function.
 - c. A Combination resume will give a combination of each of these types of resume formats.

Select Resume Type

Chronological

A chronological resume is developed around your work history. Jobs are listed in reverse chronological order with your most recent position listed first. Employers like this type of resume, because it is easy for them to see where you worked and when you worked there. Chronological resumes work best for job seekers with a solid, unbroken history of employment. Sample Chronological Resume ([link to Chronological Resume Sample.pdf](#))

Functional

A functional resume is arranged around your skills and experience, rather than your chronological work history. Functional resumes highlight relevant skills instead of position titles. They are often used by job seekers who are changing careers or who have gaps in their employment history. Sample Functional Resume ([link to Functional Resume Sample.pdf](#))

Combination

Combination resumes work well for job seekers with varied employment histories or for those who are changing careers. Sample Combination Resume ([link to Combination Resume Sample.pdf](#))
